

2010 Grant Award Summary

Organization	City	Amount
<p>Advantage Smiles for Kids Funding for dental and orthodontic services to children who are economically disadvantaged and without adequate dental insurance. The result is to alleviate the physical and psychological pain children with severe malocclusions face.</p>	Redmond	\$ 3,000
<p>Assistance League of Eugene Operating support for the ALE Children's Dental Center which provides free dental care to K – 12 public school children in Lane County from low-income or homeless families.</p>	Eugene	\$ 5,000
<p>Boys & Girls Club of Albany Funding to assist with dental supplies for a free dental clinic to be housed in the Boys & Girls Club of Albany. The clinic is scheduled to open in January, 2011 and will serve uninsured children ages 6 to 18.</p>	Albany	\$10,000
<p>Children's Dental Clinic of Jackson Co. Funding to purchase two Assistant Instrumentation units to complete a remodel required to make three treatment rooms operational in their relocated facility.</p>	Medford	\$ 4,000
<p>Friends of Creston Children's Clinic Operating support to help sustain the Creston Children's Dental Clinic which serves children in the Portland Public Schools who would otherwise have no access to dental care. The clinic provides preventative and restorative dentistry, as well as education.</p>	Portland	\$10,000
<p>Deschutes County Healthy Beginnings Operating support for free health and developmental screening clinics to all children, birth through age five. These clinics include a dental screening component and provide dental information and education.</p>	Bend	\$ 5,000
<p>Multnomah Dental Society Support for the annual Children's Health Fair to be held in February, 2011. The funds are used to subsidize the use of three mobile dental vans to provide urgent dental care to underserved children. Grant funds will be matched by MDS members.</p>	Portland	\$ 2,000
<p>Virginia Garcia Memorial Health Center Funding to support the OB Baby Dental Program which seeks to mitigate the potential and serious health risks facing pregnant women who are in poor health and suffering from periodontal disease. The program provides education and periodontal treatment to low-income and under- and uninsured, minority women.</p>	Cornelius	\$ 5,000
Total		\$44,000
