

TAKING ^{IT} _{TO} THE STREETS

THE DENTAL
FOUNDATION
OF OREGON

2009 Annual Report

“Do vegetarians have
the same teeth as
real people who eat steak?”

-1st grader from Baker City

We see an Oregon where all children have healthy SMILES

Since 1982, The Dental Foundation of Oregon, the charitable arm of the Oregon Dental Association, has been working to improve the oral health of Oregonians.

Our mission: Improving oral health for Oregon's children. We believe every child in Oregon deserves to receive quality dental care and that children and their parents should understand the importance of good oral hygiene.

To achieve our vision, we invest in these primary strategies:

- ◆ Eliminate the economic, cultural and geographic barriers to dental care by taking care and education directly to children with the Tooth Taxi mobile dental clinic.
- ◆ Support non-profit dental programs that provide oral health education and dental care through DFO Community Grants.
- ◆ Educate the public about the oral health crisis in Oregon, promote the importance of good oral health and encourage volunteerism in the dental community.

To Our Friends & Supporters

We are pleased to present the 2009 Annual Report with our "Taking it to the Streets" theme that recognizes the first full-year of service for the Tooth Taxi mobile dental clinic.

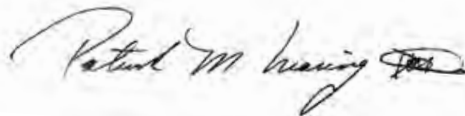

An innovative partnership with OEA Choice Trust and ODS, the Tooth Taxi exceeded our expectations in 2009 helping over 4,700 students and delivering \$1,158,675 in donated dental care. The Tooth Taxi was front page news in many communities, helping to raise awareness of the dental crisis in Oregon and promoting a positive message about the importance of good oral hygiene.

We were able to do this important work because of our outstanding dental team, led by Dr. Weston W. Heringer, Jr., and the support of over 200 volunteers. We are pleased to share some Tooth Taxi stories and photos of volunteers in this report.

DFO also achieved a milestone in 2009 passing the one million dollar mark in our Community Grant program. We were pleased to provide grants to fifteen non-profit dental programs that helped address serious dental needs of children in communities across the state.

We are very thankful for our donors and volunteers whose support made it possible for us to do this work in 2009, and we remain committed to "taking it to the streets" in 2010 so that one day all Oregon children will have a healthy smile.

Sincerely,

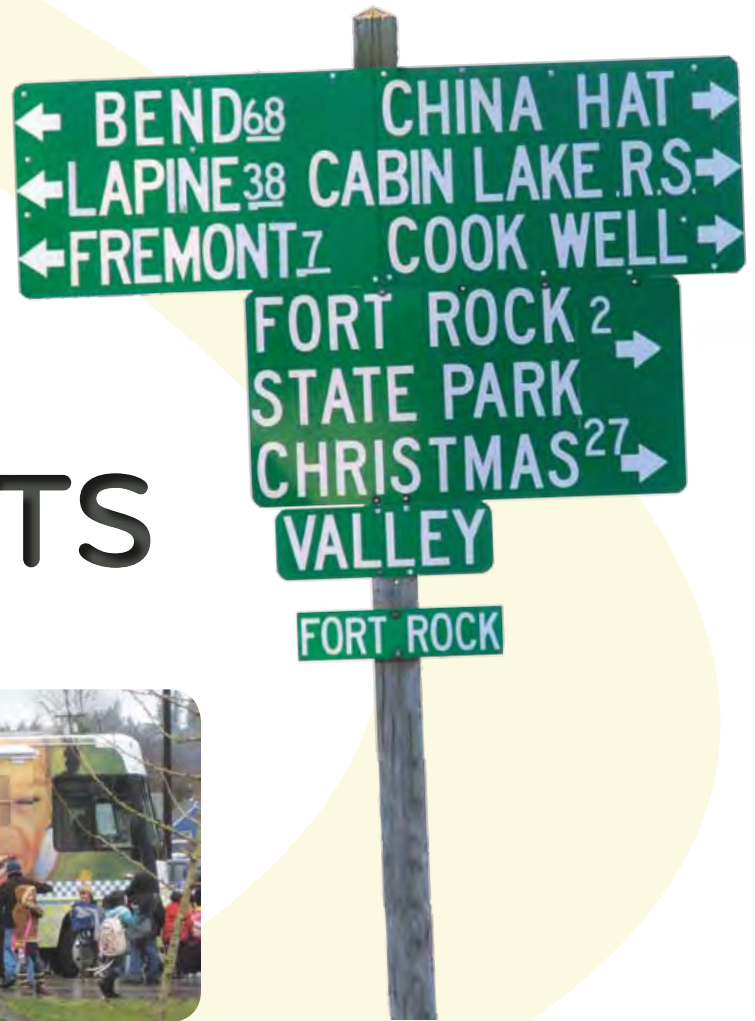

Patrick Nearing, DMD
President of the DFO Board

Charles LaTourette
Executive Director

TAKING IT TO THE STREETS

2009 was a remarkable year of achievement for the Tooth Taxi, completing its first full year of operation taking dental care and oral health education to underserved children throughout Oregon.

The result of a unique partnership with the Dental Foundation of Oregon, OEA Choice Trust and ODS, the Tooth Taxi visited 52 schools/communities, helped over 4,700 students and smashed the million dollar milestone by delivering \$1,158,675 in donated dental services.

Spending up to a week at a school, the incomparable Tooth Taxi team of Dr. Weston Heringer, Jr., DMD, Mary Daly, program manager, and dental assistants James

Olcott and Stephanie Vogl, EFDA, provided comprehensive and preventive dental services such as screenings, cleanings, fluoride treatments, dental sealants, fillings, crowns and minor oral surgery, and they delivered in-classroom oral health education.

With two dental chairs on the van, there were ample opportunities for volunteer dental professionals to serve, and they did, along with many members from the community. Turn the page to read some stories of Tooth Taxi visits during the year and to see our list of community volunteers.

Tigard

YOU DON'T HAVE TO LEAVE THE PORTLAND AREA

to find thousands of children who need dental care. In June, we treated children from Metzger Elementary School which receives our award for the most diverse student body—encompassing 39 different languages. With the help of our school partners

and many dental volunteers, including a group of hygiene students from Pacific University, we screened 348 students, treated 55 students on the van and delivered \$29,309 in donated dental services.

Coos Bay

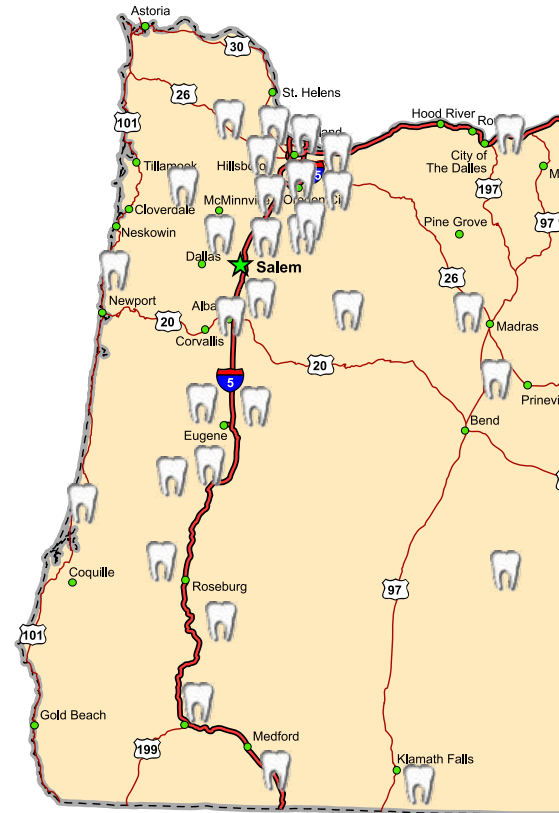

IT DIDN'T TAKE LONG for Dr. Heringer to get his first "sunshine" case of

the day when a fourth-grader came in with a badly infected tooth. "Sunshine" is kid-friendly code for the need to extract a tooth. Unaware she even had a tooth pulled, the child left with a happy smile.

With outstanding support of volunteer dentists from the Southwestern Oregon Dental Society we screened 116 students and provided comprehensive care to 44 students delivering \$32,038 in free services.

Library Book Packs

In 2009, we introduced the Tooth Taxi Library Book Packs that allow donors to purchase 4 oral health books for school libraries the Tooth Taxi visits. Books are given in honor of loved ones, memorable teachers and friends. Each library pack costs \$50.

*Baker
City*

LOCATED IN THE VALLEY between the rugged Elkhorn Mountains and the jagged, snowy Wallowa Mountains, Baker City is on the historic Oregon Trail. The Tooth Taxi parked at Brooklyn Elementary and with students coming from several schools in the area, we screened 132 children, provided oral health education to over 200 and treated 78 children on the van delivering \$35,663 in donated dental services.

OEA Choice Trust Employees Play Critical Role

As a key strategic partner of the Tooth Taxi, OEA Choice Trust employees **Lisa Mahoney** and **Holly Spruance** work

closely with schools throughout the state to help arrange site visits and ensure that schools are prepared for the Tooth Taxi's visit. "Holly and Lisa's work with schools paves the way for successful Tooth Taxi visits," said Mary Daly, Tooth Taxi Program Manager. "We are lucky to have such great partners."

DFO GRANTS

Reach Far & Wide

Cornelius

VIRGINIA GARCIA OB BABY DENTAL PROJECT

Every day in America babies are born prematurely or with low birth weight because the child's mother was fighting periodontal infection during her pregnancy. With support from a DFO grant, the Virginia Garcia Dental Clinic in

Cornelius, Oregon developed the OB Baby Dental Project to provide dental screenings, treatment and education to at-risk, uninsured pregnant women and their families. The program has been an outstanding success, reducing the number of low weight

and premature babies delivered at the clinic. "Through our valued partnership with The Dental Foundation of Oregon, we are able to help women improve their own oral health, the overall health of their newborn infants and the oral health of their other children," said Christine Rontal, MSW, Executive Director of the Virginia Garcia Memorial Foundation.

Since 1982, DFO has provided **over one million dollars** in community grants to support non-profit dental programs in communities throughout Oregon. The endowment, built by donations from the dental community and long-time partners like ODS, **has helped over 250,000 Oregonians get dental care and oral health education.**

Salem

BOYS & GIRLS CLUB OF SALEM, MARION AND POLK COUNTIES

Barriers to care can be economic, cultural and geographic. That is why the Salem area Boys & Girls Club wanted to purchase a van for their Health & Dental Service Clinic. Their new 2010 Toyota Sienna is brightly decorated with smiling faces of children, and it has already helped transport over 2,000 children to the clinic for dental sealants, cleanings, fluoride treatments and dental education. "Many of our parents just can't get their children to the clinic, so we really needed a van to make sure that children who really needed care the most are getting it," said Jodi Loper, Dental Center Director, "Thanks to support from DFO we were able to get additional funds and secure the van."

In 2009, we provided grants totalling \$56,300 to the following organizations:

- Assistance League of Eugene
- Beaverton Rotary Foundation
- Boys & Girls Club of Corvallis
- Boys & Girls Club of Salem, Marion and Polk Counties
- Community Health Center—Medford
- Crook County CHIP
- Klamath Child & Family Treatment Center
- Multnomah Dental Society
- Oregon Coast Community Action
- OHSU School of Dentistry, Pediatric Department
- Salem Keizer Head Start
- Siskiyou Community Health Center
- St. Vincent de Paul Society
- Virginia Garcia Memorial Foundation
- White Bird Clinic

Medford

COMMUNITY HEALTH CENTER

Thirteen-year-old James had never seen a dentist. When he was screened through a school-based visit sponsored by the Community Health Center his family was stunned to learn he had more teeth infected with caries than he had sound teeth. He was referred for a comprehensive physical exam because his oral infections could have led to other more serious problems. With support from DFO, the program has helped over 2,000 students in Eagle Point, Butte Falls and Prospect School District.

INVESTING IN Our Children

In 2009, DFO provided Community Grants totaling \$56,300 to 15 non-profit organizations to help over 16,000 children receive needed dental care and oral health education. Since 1982, DFO has given over one million dollars to dental programs and helped over 250,000 individuals in communities across Oregon.

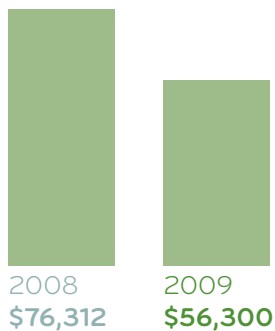

We saw improvement in our investment fund during the year consistent with the overall returns in the market and finished the year with a \$584,082 gain in the fund. DFO invests in a fund under management of the Oregon Community Foundation (OCF).

DFO revenue including contributions, special events and the annual campaign was \$335,450 and administrative expenses for fund-raising, marketing, investment expenses and foundation management were \$255,410.

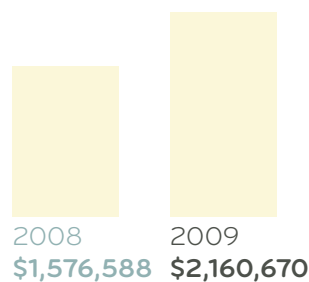

Tooth Taxi program funds are held in a restricted fund separate from the DFO Endowment and DFO takes no fees for the program. Annual operating expenses excluding depreciation were \$390,186 in 2009, our first full-year of operation. 2009 revenue including grants, donations, fund interest and insurance reimbursement was \$294,096.

We were pleased to receive many first-time donations and grants from the dental community, individuals and Oregon's leading foundations and companies who are all recognized in the donor section of this report.

Cornerstone SOCIETY

The Cornerstone Society was established to help build a foundation to meet the oral health needs of underserved children for many years to come. Members of the Cornerstone Society have named DFO as one of their charities in their will or estate plans, leaving a legacy for future generations.

"Dentistry has provided our family with a wonderful lifestyle, and **supporting DFO has allowed us to help thousands of people in a way very few individuals can.** By joining the Cornerstone Society, we are leaving a legacy that will help children improve their lives and make a better society."
